DETAILED ACTION

1. Claims 14,16-18 are rejected under 35 U.S.C. 103(a) as being unpatentable over Upson in view of applicant's admission of prior art and Calkin.

The claims are rejected for the reasons given in the previous Office Action, mailed 1/27/2003.

It is noted in regard to the newly added limitation "the first wedge zone being pressure loaded at the outlet end" in claim 14 is a statement of intended function or method of operation and thus does not impart further positive apparatus structure.

2. Claims 14,16-18 are rejected under 35 U.S.C. 102(b) as being anticipated by Upson.

The claims are rejected for the reason given in the previous Office Action, mailed 1/27/2003. The newly added limitation does not patentably distinguish the claimed invention over Upson for the same reason noted above.

3. Claims 14,16-27 are rejected under 35 U.S.C. 103(a) as being unpatentable over Applicant's admission of prior art with Upson, Thomas ('676 or '670) and if necessary, Csordas, Skoldkvist and Calkin.

The claims are rejected for the reasons given in the previous Office Action, mailed 1/27/2003. The newly added limitation does not impart patentable weight to the claims for reasons given above.

4. Applicant's arguments have been considered but are deemed unpersuasive of patentability.

It is urged that none of the references show a pressure loaded wedge zone outlet. This limitation is merely at best a functional limitation having no positive apparatus structure. Thus, no patentable is afforded the claims by this limitation.

5. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
